Special Instructions:

<b>\$299 FOR FULL PANEL (8-DAY BIO)      II      \$359 FOR 3-DAY EXPRESS FULL PANEL</b>		
BIOLOGICAL (Choose Speed Below)	Heavy Metals (or \$119 for Entire Panel)	ID/Percentage (or \$99 for Entire Panel)
8-10 Day Plating (\$109)  3-Day Next Gen (\$159)	Full Panel HM (\$109)  3-Day Next Gen (\$159)	ID / Potency (\$99)  Kavalactones* (\$99)  * Includes ID & Potency

PLEASE NOTE: Once testing has started, there are no cancellations and the client is responsible for 100% of the original testing costs. Most testing begins upon payment evidence, so the cancellation window is very small. Client also acknowledges the physical minimum time limits for testing Heavy Metals (4-6 days) Biological (8-12) regardless of "RUSH" status. These are non-binding estimates.

ALL SAMPLES DESTROYED IMMEDIATELY AFTER TESTING UNLESS REQUESTED OTHERWISE.

AUTHORIZATION
This requisition for Laboratory Services, when signed by the Client, becomes a binding contract including the Terms and Conditions as described on <a href="http://www.Wonderland-Labs.com">www.Wonderland-Labs.com</a> . Client hereby requests Wonderland Labs to perform the above services.
Date: _____

## Q: How much material do I need to send you?

### RAW MATERIAL/NON-EXTRACTED MATERIAL

- ID/Content Only (POWDERS) = 5 grams
- ID/Content Only (LIQUIDS) = 15mL / 0.5oz
- **ID / Biological / Metals (FULL PANEL – POWDERS) = 30 grams (Most common request)**
- ID / Bio / Metals (FULL PANEL – LIQUIDS) = 28ml / 3oz

### EXTRACTED/COSTLY MATERIAL

- ID/Content Only (POWDERS) = 2 grams
- ID/Content Only (LIQUIDS) = 5mL
- ID / Biological / Metals (FULL PANEL – POWDERS) = 14 grams\*
- ID / Biological / Metals (FULL PANEL – LIQUIDS) = 28mL / 1oz\*

We request just enough sample material to run our testing, and use most if not all of the material sent to us. For chain of custody concerns, all samples become the property of Wonderland-Labs, BUT YOU MAY REQUEST ANY EXTRA MATERIAL BACK AT THE TIME OF TESTING.

Also, please note that any samples sent without the **Sample Submission Form** will be quarantined and then disposed of. We will do our best to track you down, but even an identifying note in your package goes a long way to helping us connect the sample to the client.

## Q: How do I need to package the material?

Just use common sense: A clean work area, sprayed with a disinfectant is a good place to start. You want to be sure you're not introducing any external pathogens. When packaging, use a different scoop or spoon for each sample if providing multiple samples. Place each sample inside a plastic bag (such as a Ziplok), and then place that inside a second bag of the same size or slightly larger.

Please LABEL YOUR SAMPLES. If they're not clearly labeled with labels that won't come off during shipping, you'll have to send us new samples. And please be 1000% sure you send enough material for the requested testing. This is the #1 holdup for incoming samples.

## Q: Do you have a Walkthrough for Sample Submission?

We do! – IT's the very first question on our FAQ page. It's called "**CAN YOU WALK ME THROUGH THE SUBMISSION PROCESS?**". There, we answer just about any question that has ever been asked of us.

Please don't hesitate to call / email / text us with any questions though; we are here for you!
